

The Foundation is looking forward to providing another year of educational and enrichment curriculum for your children in the areas of Science, Music, Art, Physical Education, and Technology (SMART). We know that COVID-19 has impacted us all, but we hope that together with our wonderful RHES community, and some safety precautions, we can make this school year just as special. We are planning several fun events throughout the year (even though they may be virtual) including Pumpkin Palooza, a Winter Holiday Event, a Family Dance, and our annual Fun Run. But we need your help!

We have budgeted \$50,000 this school year to augment the educational experience and needs of our children, an amount that is 2/3 of our normal educational support budget. As of yet, the allocation of this budget has been mostly left undecided as teachers and staff try to figure out how best to support our families in a new virtual learning environment, and if/when the school reopens, supporting a safe, in-person experience for those students on campus.

To date in the 2020-21 school year the RHES Foundation has purchased: 1) the educational materials you received in your school supply box on the first day of school, 2) an upgrade to the marquis software, and 3) has put out a call to support those families in need of at-home internet during our virtual school year. However, the majority of this year's budget we have left undecided in order to be flexible for our students, their families, our teachers, administration, and staff during this unprecedented school year.

We thank you for your understanding and support of our wonderful Rolling Hills Elementary School.
